

## KEEP THESE IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions before using this appliance.

This appliance is intended for household use only.

**WARNING:** Do not use this appliance near bathtubs, showers, basins or other vessels containing water.

**WARNING:** When the hairdryer is used in a bathroom, unplug it after use since the proximity to water presents a hazard even when the hairdryer is switched OFF.

For additional protection the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30mA is advisable in the electrical circuit supplying the bathroom. Ask your installer for advice.

This appliance can be used by children aged from 8 years and above, and by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.

Children shall not play with the appliance.

Cleaning and user maintenance shall not be made by children without supervision.

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

**WARNING:** Do not leave the appliance unattended. Do not allow bare skin or the eyes to come into contact with any heated surface on the appliance when in use. Do not place the appliance on any heat-sensitive surfaces when hot or plugged into the mains. Always unplug the appliance when not in use.

**WARNING:** Do not block the air inlet or outlet during use. When using the appliance, care must be taken to prevent hair entering the air inlet opening. The air outlet opening of this appliance will become hot during use, avoid touching the

outlet or any accessories attached to the outlet.

**NOTE:** Use on towel dried hair only.

**WARNING:** This appliance has no user-serviceable parts or components.

### Guarantee and Service section:

Your REVLON appliance is guaranteed against defects under normal use for 3 years from the original date of purchase. If your product does not perform satisfactorily because of defects in materials or manufacture, within the warranty period, it will be replaced.

Please retain your till receipt or other proof of purchase for all claims within the warranty period. The guarantee becomes void if the proof of purchase is not presented. Simply take the appliance back to the retailer from where purchased, along with a valid till receipt, for exchange free of charge. This guarantee does not cover defects which have occurred due to misuse, abuse or are caused by failure to follow the instructions contained within this manual.

UK only: This does not affect your consumer statutory rights.

The manufacturing date is given by the 4 digit Batch Number marked on the rear of the product. The first 2 digits represent the week of manufacture, and the last 2 digits represent the year of manufacture. Example: 3421 - product manufactured week 34 of the year 2021.

The appearance of this appliance may differ from the illustration.

## OPERATING INSTRUCTIONS

This appliance is intended for household use only.

The appearance of this appliance may differ from the illustration.

Only use this appliance for its intended purpose as described in this manual.

Do not use attachments not recommended by the manufacturer.

## TOURMALINE IONIC TECHNOLOGY

Helps to reduce static and frizz and enhances shine for silky-smooth results.

## HEAT AND SPEED CONTROL

High temperatures and speed settings are ideal for fast drying or rough drying before styling; low temperatures and speed settings are ideal for styling and use on extensions.

## OVERHEATING CUT-OFF

This appliance is equipped with a thermostat that will cycle OFF (O) should the heat of the dryer exceed the optimum drying level, due to partially blocked air inlet or outlet openings.

In the event that the thermostat cycle OFF (O), once the appliance cools, the thermostat will automatically reset and usage may resume.

## COLD SHOT BUTTON

Once the desired style is achieved, push the cold shot button (❄️) to set the style with a flow of cold air.

## ULTRA SLIM CONCENTRATOR

Channels airflow for smooth, manageable drying. Do not concentrate the airflow on any one area for an extended period of time. If you desire to dry your hair quickly, remove the attachment and set the dryer to a high heat and speed setting. Before drying thick hair with this attachment, use the dryer on the high setting to remove excess moisture.

## VOLUMISING DIFFUSER

Push on to the dryer in place of the concentrator. Creates volume, lift waves and enhances curls.

CAUTION: Use only on low heat/low speed settings.

## STYLING

Always towel-dry hair before using a hairdryer. Set the dryer on a high heat/speed setting and circulate airflow through the hair. Do not concentrate airflow on any one area for a long period of time. As soon as hair is almost completely dry, lower the heat/speed setting and use a styling brush to shape the hair.

## REMOVABLE END CAP CLEANING INSTRUCTIONS

This dryer must breathe to operate at peak efficiency. Always check that the air intake is free from lint, hair and other matter. Do not attempt this when the dryer is operating or connected to the mains supply. Turn off the appliance before cleaning the end cap. Hold the end cap at both sides and rotate it anti-clockwise to remove it from the dryer. Clean with a vacuum or thoroughly dust off the end cap with a brush and replace it on the dryer. This should be done regularly.

## HANGING RING

This dryer features a ring allowing it to be conveniently hung on a hook for easy access.

Cleaning - Always unplug the appliance from the mains after use and allow it to cool before cleaning. Wipe the outer surface of the dryer with a slightly moist cloth, then wipe dry.

## STORAGE

Always unplug when not in use.

Allow the appliance to cool before storing. Always store in a dry location. Do not pull or twist the cord. Do not wrap the cord around the appliance, as this may cause the cord to wear prematurely and break. Regularly check the power cord for wear and damage (particularly where it enters the appliance and the plug).
