**The hair should be clean, dry and free of dry shampoo, hairspray, mousse, spray wax, styling dust and all other styling products.**

## **SAFETY CAUTIONS**

- Original instructions. Read these safety precautions carefully before using the unit! This appliance should only be used as described within this instruction booklet. Please retain for future reference.

## **WARNING! BURN HAZARD: THIS APPLIANCE GETS HOT!**

- **ALWAYS** keep out of reach of children (during and after use and whilst cooling).
- Always take extra care if used on children or near children.
- Do not use on very young children.

## **IMPORTANT SAFETY**

- **UK Only:** This appliance must not be used in the bathroom.
- **Outside the UK:** If using the appliance in a bathroom, unplug after use as the proximity of water can be dangerous even if the appliance is switched off. For additional protection the installation of a residual current device (RCD) with a rated residual operating current not exceeding 30mA is advisable in the electrical circuit supplying the bathroom. Ask your installer for advice.
- **WARNING!** Do not use this appliance near bathtubs, showers, basins or other vessels containing water.
- Do not immerse the appliance into water or other liquids.
- Always inspect the appliance before use for noticeable signs of damage. Do not use if damaged, or if the appliance has been dropped. In the event of damage, discontinue use immediately. Contact the Conair Customer Care Line (refer to 'UK After Sales Service' section for further information).
- Do not use the appliance if the lead is damaged. In the event of damage, discontinue use immediately. If the lead is damaged it must be replaced by the manufacturer. Return the appliance to the Customer Care Centre (refer to 'UK After Sales Service' section for further information). No repair must be attempted by the consumer.
- Do not leave the appliance unattended when switched on or plugged in.
- During use, do not place the appliance on any heat sensitive surface, even when using the heat mat provided.

- **WARNING!** Only hold the handle during use. Do not touch the hot surfaces of the appliance when in use as these can be extremely hot.
- Take care to avoid the hot surface of the appliance coming into direct contact with the skin, in particular the eyes, ears, face and neck.
- In the event of the appliance being left switched on, the appliance will automatically shut off after 60 minutes. If you wish to continue using the appliance after this time, simply slide the switch to the '0' setting, then slide the switch to the heat setting suitable for your hair type to turn the power on.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand, the hazards involved. Children shall not play with the appliance. Cleaning and maintenance shall not be made by children without supervision.
- Allow the appliance to cool before storing away.
- After use, do not coil the lead around the appliance as this may cause damage. Instead, coil loosely by the side of the appliance.
- Do not use any accessories other than those recommended by BaByliss.
- Always unplug the appliance when not in use or before cleaning.
- This product complies fully with all appropriate EU and UK Legislation and the Standards relevant to this type and class of appliance. We are an ISO9001:2015

certified company that continually evaluates our Quality Management System performance. If you have any queries regarding product safety and compliance, please contact the Conair Customer Care Line. (See 'UK After Sales Service' section for further information).

## INSTRUCTIONS FOR USE

- Ensure the hair is clean dry and free of dry shampoo, hairspray, mousse, spray wax, styling dust and all other styling products.
- Comb through to remove any tangles and divide the hair into sections, no bigger than 3cm wide.
- To turn the appliance on, slide the switch to the heat setting suitable for the hair type.
- Always insert the hair into the appliance with the open part of the curl chamber facing towards the head. For longer length hair, insert the hair into the appliance further down the section to ensure the hair is drawn into the curl chamber efficiently.

- **Caution.** If the appliance is used incorrectly, in certain instances a slight tangle can occur. Should a tangle occur, firstly turn the appliance off and desist from pulling the appliance away from the hair. Gently tease the hair out from the curl chamber until fully released.

- **IMPORTANT!** The neat section of hair must be inserted into the opening, beyond the hair stopper (A) until it reaches the transparent guide (B).

- **IMPORTANT!** Firmly close the handles together to allow the hair to be drawn into the curl chamber.
- Keep the appliance in position and once the hair has been drawn into the curl chamber, the appliance will start beeping. Continue to hold the handles closed until the appliance sounds four quick beeps in succession, this is to indicate the time is up.

**IMPORTANT!** If the styler is not released from the hair after the 4 quick beeps, it will beep continuously and the red power indicator will flash until the handles are released. To continue using the appliance, remove from the hair and use as normal.

- Release the handles fully and smoothly pull the appliance away from the head to reveal the curl.

- To allow the curl to set, do not comb or brush the hair until it cools.
- Repeat around the head until you have the amount of curls desired.
- After use, switch off and unplug the appliance.

### **Heat Settings**

If you have delicate, fine, bleached or coloured hair, use the lower heat settings. For thicker hair, use the higher heat settings. It is suggested to always complete a test on initial use to ensure the correct temperature is used on the hair type. Start on the lowest setting and increase the temperature until desired result is achieved.

Below is a guide of the temperature settings:-

0 = OFF

I = 210°C

II = 230°C

### **Time Settings**

There are 3 timer settings with audio beep indicator. These different settings will give different curl effects. The longer the time the hair is held inside the curl chamber, the more defined the curl will be. But results will also vary according to hair type. Use the following as a guide.

- Setting 8 (8 seconds = 3 beeps) - for loose waves
- Setting 10 (10 seconds = 4 beeps) - for soft curls
- Setting 12 (12 seconds = 5 beeps) - for more defined curls

### **Sleep Mode**

This appliance has an automatic sleep mode feature. If the appliance is not used for more than 20 minutes the temperature will automatically drop down to around 150°C. If you wish to continue using the appliance after this time, simply close then release the handles and it will return to the temperature setting you were using it on.

### **Ionic Technology**

Turning on the appliance will automatically activate the ionic technology.

**Please note:** The release of the ions from the ports produces a slight buzzing noise.

### **Auto Shut Off**

This appliance has an automatic shut off feature for added safety. If the styler is switched on for more than 60 minutes continuously, it will automatically switch off. If you wish to continue using the appliance after this time, simply slide the switch to the '0' setting, then slide the switch to the relevant setting to turn the power on again.

### **Heat Protection Mat**

This appliance comes with a heat protection mat for use during and after styling. During use do not place this appliance on any heat sensitive surface, even when using the heat mat provided. After use, switch off and unplug the appliance. Immediately wrap the appliance in the heat mat provided and allow the appliance to fully cool down before storing away. Continue to keep out of the reach of children as it will remain hot for several minutes.

## Storage Pouch

The appliance comes with a storage pouch for use after styling. After use, switch off and unplug the appliance, allow the appliance to fully cool down before storing in the storage pouch. Continue to keep the appliance out of reach of children as it will remain hot for several minutes.

**IMPORTANT!** Do not place the appliance onto the outside of the pouch when it is still hot, as the outside material is not heat resistant. Use the heat protection mat to protect work surfaces.

## CLEANING & MAINTENANCE

It is very important to use the cleaning tool included to regularly clean the curl chamber. This will prevent a build-up of product to ensure the curls produced are always perfectly formed.

- Ensure the appliance is switched off, unplugged and cool.
- Lightly dampen the cleaning tool with warm water and mild detergent or soap.
- Insert the tool fully into the curl chamber cavity as per the diagrams below.

- Rotate the tool around the curl chamber to remove any build-up of product.

- Ensure the appliance has dried thoroughly before re-using.
- The cleaning tool can be used numerous times; just remove the felt pads, rinse them in warm soapy water and leave to dry before using again.

## **CARE & MAINTENANCE**

To help keep your appliance in the best possible condition follow the steps below:

- Do not wrap the lead around the appliance, instead coil the lead loosely by the side of the appliance.
- Do not use the appliance at a stretch from the power point.
- Always unplug after use.
