

USING YOUR MIRROR

Attach to any other cosmetic mirror, vanity mirror or flat surface. Moisten the suction pads and gently push the front of the mirror onto surface.

Remove using a blunt object or finger to lift the edge of the suction pad. This will release the pressure sufficiently to pull the mirror away from the surface.

The suction pads can be removed to convert to a convenient and easy to use travel mirror.

2 AAA batteries included. Use Alkaline batteries for longer life.
