TROUBLESHOOTING

Issue	Possible Cause	Solution
Device won't start	Low battery	Charge and restart
Stops during use	Timer ended or battery low	Recharge and restart

IMPORTANT SAFETY INFORMATION

- This product includes a heating function — use with caution, especially if you are heat-sensitive.
- Charge the battery at least once every 1–2 months to maintain optimal performance.
- Use only a certified 5V 1A charger. Higher voltages may damage the device.
- Ensure the input voltage matches the product specifications.
- Do not use non-original accessories or substitutes.
- Do not charge the device during voltage fluctuations.
- Do not charge or use the product in bathrooms or humid environments.
- Avoid contact with the power plug using wet hands.
- Avoid prolonged exposure of the device to direct sunlight or high temperatures.
- Children or persons with reduced physical, sensory, or mental capabilities must use the device under supervision.
- Do not dispose of the built-in lithium battery with household waste. Follow local environmental regulations for proper disposal.

PRODUCT PRECAUTIONS

Do not use if:

- It fails to start.
- The battery depletes during standby.
- The session ends due to the timer or battery drain.

Consult a doctor before use if you:

- Are receiving medical treatment or feel unwell.
- Have an acute or chronic illness.
- Are under the influence of alcohol.
- Are a minor.

Battery Charging and Disposal

- Charge the battery at least once every 1–2 months to maintain performance.
- Use a certified 5V 1A charger. Higher voltages may damage the device.
- Do not dispose of the battery with household waste.
