

Problems with unwanted hair? Tried everything, but nothing worked?

Try **VANITY LASER EXPERT** – professional hair removal cream with finishing wipes. Watch your body recover the natural smoothness with each subsequent application as the hair becomes weaker and less visible.

The effectiveness of **VANITY LASER EXPERT** is based on the revolutionary **TELOCAPIL™** formula made of a plant extract responsible for unwanted hair reduction and deterioration to prolong the time in-between subsequent hair removal sessions.

In **IN VITRO** studies, the substances contained in **TELOCAPIL™** were shown to permeate to and damage hair follicles, and to affect the hair growth cycle to weaken hair and inhibit its growth. The quality and thickness of unwanted hair become reduced with each subsequent hair removal session.

The innovative formula also contains urea to prevent hair regeneration, and orchid extract, which softens and protects the skin.

Visible EFFECT:

- prolonged time in-between subsequent hair removal sessions
- less hair growing back
- hair becomes much weaker and thinner
- silky smooth and moisturized skin

* Effectiveness tested in vivo on the **TELOCAPIL™** for daily use. Effect depends on the thickness and type of hair and skin.

PLEASE NOTE:

The **TREATMENT** consists of two phases: hair removal cream and application of active substances (wipes).

To get the best results, use both the cream and the wires in sachets as per instructions.

Use regularly for effective hair removal.

Application:

- apply the cream on clean and dry skin with the spatula, do not rub in. Leave for 5 minutes
- use the spatula to remove the cream together with hairs
- carefully wash the skin with warm water and dry; do not use soap
- if the hair is thick and strong, you can leave the cream on for a little longer, up to max. 10 minutes.
- gently rub the hair removal area with the wipe and massage to allow substances from the wipe permeate into the skin.
