WARNING & QUALITY

Compliance with FCC Regulations:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Please comply with the following before using the product:

Thoroughly clean the product before you use it; wash the device with a mild, unscented soap and then rinse with clean warm water less than 45°C/113°F degrees. Finally, gently wipe it with a towel or soft cloth.

FCCID:2A74F-SA059B

WARNING!

- Do not use massage oil or hand cream as lubricant.
 - The use of these types of items can lead to irritation and/or infection.
 - Do not use silicon-based lubricant, oils, or lotions as this will damage the product. Including but not limited to: suntation oil or sunscreen, lip care products, essential oils, coconut oil, and edible oils of all types.
 - Anyone under the age of 18 should refrain from using this product.
 - The use of non-water-based lubricant will cause deterioration of the product. Deterioration can provide breeding grounds for harmful bacteria which may lead to irritation/infection when used on the body.
- Reminder: Do not use any cleaning agent containing alcohol, gasoline, or acetone to clean the product. Avoid contact with direct sunlight and long-time exposure to high-temperatures. The product should be stored in a clean and dry place with no contact to products made primarily of plastic.

WARNING! Please read the following safety information carefully before using the product.

When discarding packaging, be sure to recycle wherever possible – try to avoid unnecessary disposal of recyclable items. Old devices must be taken to the appropriate collection points according to your local legislation and Directives 2012/19/EC and 2006/66/EC.

The symbol of the crossed-out garbage can on wheels () shows that this product must be taken to an e-waste collection point for disposal so that it can be recycled optimally.

Batteries do not belong in household waste. As a consumer, you are under legal obligation to turn in used batteries. You can do this at public collection points or places where batteries are sold. Batteries that contain harmful substances are marked with the  symbol and one of the following chemical symbols:

- Pb = Battery contains more than 0.004 percent lead by mass.
- Cd = Battery contains more than 0.002 percent cadmium by mass or
- Hg = Battery contains more than 0.0005 percent mercury by mass.

Lithium batteries and battery packs for all systems can only be turned in at collection points if they have been discharged. To prevent short-circuits in the event of incomplete discharging, the poles on these types of batteries should be insulated using a substance such as adhesive tape before the batteries are returned.

Quality

Surpassing standards from Europe and America

Material Safety

All SVAKOM products are manufactured using environmentally friendly material including Silicone and ABS plastics. They are harmless to humans' body.

International Certification

SVAKOM products have passed EU ROHS certification and meet EU CE Directive and WEEE Directive. SVAKOM products are "Green" meeting the official safety and environmental protection standard issued by agencies in Europe and North America.

Product Information

Additional Information: The EU CE Directive and the WEEE Directive are referred to as the "Twin Directives for Environmental Protection" or "Double Green Directives" and are used to restrict hazardous substances in electronic products including lead, cadmium, and mercury. RoHS stands for "Restriction of the Use of Certain Hazardous Substances" and WEEE stands for "Waste Electrical and Electronic Equipment". Products that meet the standards set out in these two directives can be advertised as "Green Products".

EU CE Directive: is the collective name of a series of product standards issued by the European Union; enterprises complying with the standard may apply for CE certification mark on their products and labeling. SVAKOM products surpass the standards set out by these directives and are authorized to use the mark identifying that the products comply with all EU requirements.

Ava Neo, declares that this Model is No. SA059B.

Product Name: Ava Neo, is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. In accordance with Article 10(2) and Article 10(10), this product allowed to be used in all EU member states.

Use Ava Neo in the environment with the temperature between 0°C and +40°C.

SAR: The device complies with RF specifications when the device used at 5mm from your body.

Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

Switching Intensity Level

Single press the "▲" button to increase the intensity.

Single press the "▼" to decrease the intensity.

Switching Mode

Double press the "▲" or "▼" buttons to cycle between the modes of a function (S thrusting, S vibrating, S combined).

Thrusting Mode	T1	T2	T3	T4	T5
Graph					
Vibrating Mode	V1	V2	V3	V4	V5
Graph					

Note: When turning on the product, it will enter standby mode and search to connect with the SVAKOM App on a smart device. To control the product manually, single press the "S" button and it will enter the default mode.

4. Status Display

Low battery	light flashes
Activate status	lasting light
Stimulator off	light flashes
While charging	light flashing
Fully-charged	Permanent light

- Keep out of reach of small children and minors. Some parts may cause choking.
- Do not use product on damaged skin or anywhere experiencing irritation.
- Avoid sharing the device with others as this could lead to illness and infections.
- Take careful consideration of the materials displayed on the product packaging in order to avoid direct contact with allergies.
- Do not expose the product to extreme temperatures (i.e. freezing/heat).
- Pay close attention to notes of caution and safety to avoid injury. Failure to do so is at your own risk.
- Injury, accidents, or any harm caused from improper usage or failure to observe safety instructions is not the responsibility of SVAKOM.

Care/storage instructions

- Allow the product to cool off after every use before putting it away.
- Clean the device with warm water and soap after every use. To prevent damage to your device, please make sure no water enters the battery compartment.
- Keep the product in a clean, cool and dry place. Moisture can damage the batteries and motor. Avoid direct sunlight.
- To prevent chemical reactions, store this product by itself. Do not store with other products made from various materials.

Caution! Do not use this product if you are not of good health. You use this product at your own risk & discretion.

Improper use of the device can lead to injury. Be sure to read the instructions before using the device. If you experience any discomfort or feel unwell when using this product, cease usage immediately. Be certain to remove any jewelry/piercings on the usage area.

Before using a new SVAKOM product, allow the device to fully charge and ensure it has been cleaned thoroughly before using it on your body.

Customer Information

Thank you for choosing to purchase a SVAKOM product. We hope you're ready to enjoy the intense sensations and hours of fun this product is sure to bring you – alone or with a partner(s).

To keep this product for many years to come, we advise that you read all information regarding proper maintenance of the product, and the safety information. Please keep this manual in a safe location for future reference. Do not throw out the product packaging, as this may contain useful information regarding batteries, charging, etc.

Battery Maintenance:

- This product uses rechargeable batteries. When replacing the battery, allow the new battery two or three hours to charge and discharge, to perform at it's maximum potential.
- A battery can be charged or discharged over 100 times before reaching full maturity. After fully charging the battery it should be disconnected from the charger – overcharging can cause a reduction in the overall battery life.
- When left idle, a fully charged battery will gradually lose its charge.
- If the device is left in a location which is either too hot or too cold there will be a reduction in the overall battery life and the battery capacity. When too hot or too cold, the battery life will be shorter even on a full charge.
- When left idle, a fully charged battery will gradually lose its charge.

Do not puncture or damage the battery. If the battery is damaged, refrain from using the device. Usage of a damaged battery can cause fires and/or cause the device to explode. When replacing the battery, be sure to use a compatible battery. Replacing with an improper battery for the device can lead to malfunction and/or injury/explosion.

Note for adapters/chargers included with the product:

The power adapter/charger is not intended for use by persons (including children) with limited physical, sensory, or mental abilities or those who lack experience and/or knowledge, unless they are supervised by a responsible person or have been instructed in the proper use of the power adapter/charger. Children should be supervised to ensure that they do not play with the power adapter/charger or individual parts thereof.

Disposal Information:

Meeting European Standards
