

DREAM TOYS

GODDES COLLECTION IRIS

User manual

CONTROL

- 1) Press and hold the lower “power” button for approximately 3 seconds to turn the vibrator on in standby mode. It will welcome you by lighting up the LED diodes and vibrating briefly.
- 2) Press the same button repeatedly to turn on and change the individual vibration and pulsation modes of the tip and beads of the vibrator.
- 3) Press the upper button with the “wave” symbol repeatedly to turn on and change the individual vibration rhythms of the clitoral stimulator.
- 4) Press the button with the “wave” symbol for about 3 seconds to turn off the stimulator.
- 5) Press the “power” button for about 3 seconds to turn off the vibrator.

MAINTENANCE

After each use, rinse the product with lukewarm water.

We also recommend using an [erotic cleaner](#), which also helps to remove microscopic dirt.

Simply spray the product, leave it on for about 1 minute and then dry with a towel or cloth that does not leak fibers.

WATERPROOF

The product is **water resistant**, so maintenance is very easy.

The product can be splashed with water, but you **MUST NOT immerse it in water!**

Waterproof means that you could completely submerge the product in water and enjoy water play.

Due only to the water resistance of the product, this is not possible in this case.

LUBRICATION

Use only [water-based lubricants](#). Other lubricating gels could damage the surface of the aid and it could become sticky.

DRIVE AND CHARGING

The product is powered by an integrated battery, which is approximately half charged from the factory, but we recommend that you fully charge it before first use.

Charge the battery using the included USB cable, which can be plugged into a phone adapter, PC or powerbank. When charging, the LED flashes and when fully charged, the LED control lights up permanently. Charging time is about 120 minutes.

STORAGE

Store separately from other erotic aids in a dry and dark place.

PACKAGING CONTENTS

In the package you will find a vibrator and magnetic USB cable for charging.
