295 mm

 Product can cause severe allergic reactions.

Read and follow instructions: Do not lighten your hair if:

- you have a rash on your face or sensitive, irritated and damaged scalp,
- you have ever experienced any reaction after lightening your hair.

Ingredients see packaging (folding box). Rinse hair well after application. Avoid contact with eyes.

Rinse immediately if product comes into contact with them. Wear suitable gloves. For external use only. Do not use to dye eyelashes or eyebrows. Keep out of reach of children. Keep the empty carton and the instruction leaflet in case you experience a reaction. Please consult a doctor, if you have any doubts.

1. IF DURING USE YOU EXPERIENCE

- any stinging or burning and/or rash, rinse immediately and discontinue lightening your hair as this may be an indication of a more serious reaction. Do not lighten your hair again before consulting a doctor or seeking medical advice.
- rapidly spreading skin rash, dizziness or faintness, shortness of breath and/or swelling of eyes/face, rinse immediately and seek immediate medical attention and contact the manufacturer.

2. IF AFTER USE OR ON THE FOLLOWING DAYS YOU EXPERIENCE problems such as skin or scalp itching, skin or scalp rash, swelling of eyes/face, blistering and/or skin or scalp weeping, seek immediate medical attention and contact the manufacturer.

PRECAUTIONS

- This product contains ingredients which may cause severe eye irritation and possible permanent eye injury. If the product gets into your eye, flush immediately with a large amount of lukewarm water and seek medical advice.
- If you wear contact lenses during application and any product gets into your eye, remove the contact lens first, then flush immediately with a large amount of lukewarm water and seek medical advice.
- Do not inhale or ingest the product.
- Avoid unnecessary skin contact.
- Do not use if your hair has been treated with henna or metallic dyes.
- Remove all metal objects such as clips and hair pins from hair before use and keep them away during lightening. Do not use metal tools.
- Keep developer away from heat and light. Do not mix this lightener with any other products. Do not keep any unused product. Do not leave the mixture in a closed bottle (bottle may expand and burst).
- Do not apply product in addition to an existing semi or permanent color or gradual color restorer.
- Product can cause irreparable damage to hair if used more often than recommended.
- Do not use on other than scalp hair, especially not on facial hair.
- Do not use product on permed or chemically straightened hair at any time.
- Do not exceed the processing time.

IMPORTANT ADVICE

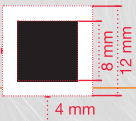

ATTENTION

- After mixing, immediately break off the tip of the applicator bottle, as foam or excess pressure may occur after a couple of minutes as a result of oxygen generation.
- Start with the application immediately after mixing. If using two packs, first mix and use the first pack entirely, and then open, mix and apply the second pack without any delay.
- Discard any unused mixture promptly – it cannot be stored for another application.

- This product is not recommended if your hair is more than slightly grey. Otherwise, the lightening result may be uneven.
- If your hair is longer than chin-length or thick, we recommend using 2 packs of Palette DELUXE Ultra Intense Lightener for the FIRST-TIME APPLICATION.
- If your hair is already lightened, follow the ROOT REGROWTH APPLICATION procedure.
- The processing time should always be followed. If you shorten the processing time, you might not achieve an optimal lightening result.
- During processing, do not cover hair, do not pile hair on top of head, or use added heat from hairdryer, heating hood, sauna etc.
- Avoid product coming into contact with clothing, jewellery, metal, plastic or absorbent surfaces as the stains occurring can normally not be removed. Remove spillages immediately with water.
- We recommend repeating the application every 4 weeks, as hair grows approximately 1 cm per month.
- The lightening effect amplifies with the number of applications and depends on your natural hair color.
