

HEY BABE, COME HERE OFTEN?

Welcome to your self love journey! We're so excited to introduce you to ORB, our vibrating pleasure ring here to level up your couples or solo play.

YOU'RE IN CHARGE

Before we can get down to the good stuff, Orb will need to charge for 2 hours. Insert the main USB plug into any USB port. Connect the charger with the charge port on Orb (those two fancy silver dots). You'll feel a slight pull and a click, followed by your Orb LED light flashing to let you know it's charging (just above the VUSH logo!). Catch up on that show you've been meaning to watch - It won't be long! The LED will stop flashing when Orb is ready to play.

TURN ME ON

- Charge Orb for 2 hours to reach full charge.
- Press and hold  for at least 3 seconds to turn on.
- Press  to cycle through all 6 intensity levels and 4 pattern modes.
- Make some magic!
- Press and hold  to turn off.

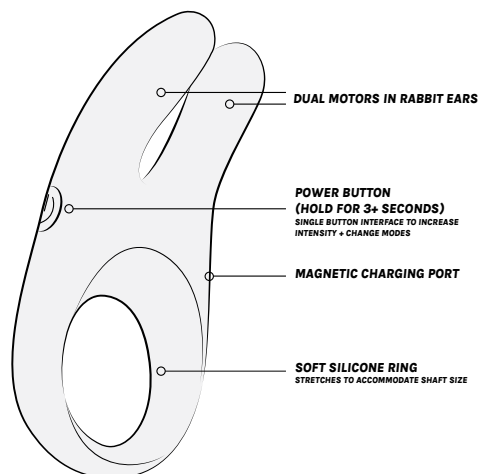

GOOD CLEAN FUN

First thing's first: Always clean Orb thoroughly before and after each use. It's waterproof, so cleaning couldn't be easier. Simply wash Orb with clean warm water and soap, then rinse and pat dry with a lint-free towel or cloth. Ta da!

For those times when you need something quick and discreet (like when your roommate is using the bathroom for karaoke practice), you can also use a gentle wet wipe, like VUSH You Do You wipes.

To show Orb a little more love and care, spritz with VUSH Clean Queen to refresh and protect the toy, and store in a VUSH Storage Bag to avoid dust build up or damage from other materials, and to keep it safe from sunlight or other extreme heats.

PLEASURE TO MEET YOU

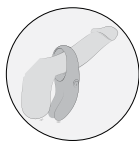

Detailed how to guide:

Lubrication

If you'd like extra lubrication for Orb, apply as much as you need to the chosen erogenous zone. Orb works best with water-based lubricants like VUSH Feelin' Myself Intimate Gel as oils, creams, and silicone-based lubricants can damage the medical-grade silicone of the toy over time.

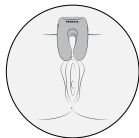

Solo Play:

Orb is the perfect handheld toy, ergonomically designed to fit in the palm of your hand with your finger resting on the power button (where all the magic happens!).

For Solo Penis Play:

Place Orb on the base of the penis and flip 180 degrees to stimulate the testes or perineum. Stimulate the shaft and head of the penis with your hand.

For Solo Clitoral Stimulation:

Orb's rabbit ears are perfect for waking up the entire vulva by stroking and running the toy up and down the lips of the labia. Working from the clitoral hood down, use Orb's ears to stimulate either side of the clitoris.

For Nipple Play:

Press Orb's ears against the nipples to stimulate the dense nerve endings or sensually use Orb's ears to draw squiggly lines around the breast as foreplay. Just like in the genitals, the tissue in the nipple becomes erect and the brain sends messages of arousal, which explains why nipple stimulation can lead to orgasm.

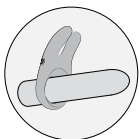

Couples Play:

Introducing a new toy with a partner can feel a bit clunky at first, especially when there are multiple different ways to explore the toy. It can take a bit of getting used to, but practice makes perfect! Experimentation mixed with communication between partners about what feels good (and what isn't hitting the spot) is the perfect recipe for couples play.

For Couples Play (Vulva and Penis):

Place Orb on the base of the penis. The stretchy material should fit comfortably around any penis or dildo. During penetration, Orb will add extra sensation to the penis of one partner while the ears gently hit the clitoris of the other partner. Go for a sex position that allows the vulva-owner to grind against Orb, such as cowgirl or Missionary positions with bodies close together. By slightly restricting blood flow to the penis, Orb helps maintain erections so penetrative sex can be enjoyed for longer.

For Couples Play (Two Vulvas):

Slip Orb over a dildo for rabbit-style dual internal and external stimulation, or use Orb during penetrative sex with a strap-on or harness. Refer back to handheld use of toy for clitoral or nipple play.

For Couples Play (Two Penises):

During penetrative sex, flip Orb 180 degrees to stimulate the testes of the person penetrating or perineum of the person receiving. For external stimulation, have one partner wear Orb on the base of their penis while the other partner stimulates the shaft and head of the penis orally or with their hand. Alternatively, put on a show by grabbing an Orb each and engaging in mutual masturbation. By slightly restricting blood flow to the penis, Orb makes orgasms feel stronger.
