

Preparation

Cover your shoulders with a towel in order to protect your clothing from the dye. Wear protective gloves. Pour the colouring agent into the flacon with the application agent. Screw the top back on the flacon and shake it carefully. Unscrew the top of the applicator immediately after mixing the product in order to prevent the dye mixture from squirting out.

Variant 1: for natural hair

Apply the product along the entire length of the hair

First, apply the dye mixture to the roots and then to any new growth. Separate your hair into strands using the point of the application flacon.

Massage the product in

Massage the mixture into the entire length of the hair before it is absorbed. Pour any unused dye mixture down the drain. If the dye mixture gets on your skin, remove it with some dampened cotton wool. Leave the mixture to react for 30 minutes.

Rinse it and then apply the final care

Dampen your hair with warm water and gently massage it in. Then rinse your hair thoroughly with warm water until the water runs clear. Apply the final care along the entire length of your hair and gently massage it in. Leave the mixture to react for 2 minutes. Rinse your hair thoroughly. Protect your colour and shine and leave your hair silky smooth with the final care. Use it once a week for a period of 6 weeks.
