

INSTRUCTIONS FOR USE

IGORA BONACROM -COLOR FOR EYEBROWS AND EYELASHES

- ☑ Easy application
- ☑ Short processing time
- ☑ Reliable result

Shade assortment:

Brown: demure, stylish (for eyebrows and eyelashes)

Black: expressive, classical (especially for eyelashes)

Advice: Harmonious facial expression is best achieved when the eyelashes are coloured darker than the

eyebrows (e.g. Eyelashes: black / Eyebrows: brown).

Content: Color creme (15 ml), Developer lotion (10 ml), Mixing bowl, Application stick, Eye protection pads, 1 instruction leaflet.

APPLICATION:

1.Preparation

☐ Clean brows and eyelashes thoroughly

☐ Protect surrounding skin areas with IGORA SKIN PROTECTION CREAM.

☐ Apply creme on one side of the protection pads and place them on the lower edge of the eyelid.

2.Formulation: Put 1 g of eyebrow and eyelash colour (1 division mark on tube) into the bowl and mix with 0,4

g (10 drops) of developer lotion.

3.Application: Apply, first one the eyelashes, then on the eyebrows with the application stick.

IMPORTANT: Eyes should be kept closed during the entire process. Avoid contact with eyes.

4.Processing time: up to 10 min depending on the desired colour depth.

5.Rinsing: Remove eyebrow and eyelash colour with warm water and cotton pad. Do not open eyes before color creme has been removed. Apply IGORA SKIN PROTECTION CREAM on any areas of the skin where the colouration has had contact and remove with a cotton pad after a few minutes.

WARNINGS - DEVELOPER LOTION CAUTION: Contains hydrogen peroxide (6% = 20 Vol.). Avoid contact with

eyes. Rinse eyes immediately if product comes into contact with them. Wear suitable gloves. Keep out of reach of children. Follow the instructions for use carefully. Store in a cool place away from direct sunlight. For professional use only.

SAFETY INSTRUCTIONS

COLOR CREME - For professional use only. Hair colorants can cause severe allergic reactions. Read and follow instructions. This product is not intended for use on persons under the age of 16. Temporary "black henna" tattoos may increase the risk of allergy. Do not colour hair if your client:

- has a rash on the face or sensitive, irritated and damaged scalp,
- has ever experienced any reaction after hair colouring,

- has experienced a reaction to a temporary "black henna" tattoo in the past.

Contains: see folding box.

Avoid contact with eyes. Rinse eyes immediately if product comes into contact with them. Rinse eyebrows and lashes well after application. Wear suitable gloves. Keep out of reach of children. Keep a record of the product used for future reference (shade number, batch code).

1.ALLERGY ALERT TEST

An allergy alert test should be performed 48 hours before each product use, even by clients who have already used colouring products before. Perform the allergy alert test on an area of skin sized approximately 1 cm x 1 cm on the inside of the elbow. Apply a small amount of the Color Creme in a thin layer on the inside

of the elbow with a cotton bud and leave uncovered for 45 minutes. Avoid contact with clothes. Close tube again carefully. After 45 minutes, wash off the Color Creme carefully with lukewarm water. If any reaction occurs during the processing time or during the following 48 hours, rinse immediately and do not use this colorant. This test represents an important precaution. However, be aware that even if an allergy alert test has been carried out the client may still experience an allergic reaction when colouring the hair. The allergy alert test is not a guarantee of avoiding future allergic reactions. Please ask your client to consult a doctor if there are any doubts.

2.IF DURING COLOURING CLIENTS EXPERIENCE:

- any stinging or burning and/or rash, rinse immediately and discontinue use as this may be an indication of more serious reaction. Do not colour their hair again

and advise the client to consult a doctor or seek medical advice.

- rapidly spreading skin rash, dizziness or faintness, shortness of breath and/or swelling of eyes/face: rinse immediately and have client seek immediate medical attention and contact the manufacturer.

3. IF AFTER COLOURING OR ON THE FOLLOWING DAYS

the client experiences problems such as skin or scalp itching, skin or scalp rash, swelling of eyes/face, blistering and/ or skin or scalp weeping have client seek immediate medical attention and contact the manufacturer.

PRECAUTIONS

⚠ This product contains ingredients which may cause severe eye irritation and possible permanent eye injury. If the developer or hair colour mixture gets into the eye,

flush immediately with a large amount of lukewarm water and seek medical advice.

☒ If the client wears contact lenses during application and any product gets into their eye, have them remove the contact lens first, then flush immediately with a large amount of lukewarm water and seek medical advice.

☒ Do not inhale or ingest the product.

☒ Avoid unnecessary skin contact.

☒ Do not use if their hair has been coloured with henna or metallic dyes.

☒ Remove all metal objects such as clips and hair pins from hair before colouring and keep them away during colouring. Do not use metal tools.

☒ Keep developer away from heat and light. Do not mix

this colorant with any other product. Do not keep any unused product. Do not leave the mixture in a closed bottle (bottle may expand or burst).
